the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995. The public sector has also become an important employer of women, with 5.5 million women employed in the public sector in 1995, compared with 4.5 million in 1980.

There are a number of reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of women in its workforce. In 1995, 88% of the public sector workforce were women, compared with 78% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

Another reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are part-time or flexible. In 1995, 28% of the public sector workforce were employed on part-time or flexible contracts, compared with 18% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

A third reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are well paid. In 1995, the average salary of a public sector employee was £18,000, compared with £15,000 in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

There are a number of other reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of jobs that are secure. In 1995, 88% of the public sector workforce were employed on permanent contracts, compared with 78% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

Another reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are well located. In 1995, 28% of the public sector workforce were employed in London, compared with 18% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

A third reason why the public sector has become an important employer of women is that it has a high proportion of jobs that are well matched to the skills of women. In 1995, 88% of the public sector workforce were employed in jobs that required a degree or higher qualification, compared with 78% in 1980. This is due to a number of factors, including the fact that the public sector has a high proportion of jobs that are traditionally held by women, such as teaching, nursing, and social work.

There are a number of other reasons why the public sector has become an important employer of women. One reason is that the public sector has a high proportion of jobs that are well paid. In 1995, the average salary of a public sector employee was £18,000, compared with £15,000 in 1980. Community Development District

General Fund

Revenues:

The District's primary source of generating revenues is from **Maintenance Assessments**. In addition, other non-budgeted sources of revenue may be realized throughout the fiscal year from items such as: Interest Income, Gate & Amenity Access Replacement Cards and FOB income, and Club House Rental Income.

Maintenance Assessments

The District levies Non-Ad Valorem Assessments on all of the assessable property within the District to pay for operating expenditures incurred during the Fiscal Year.

Expenditures:

Administrative Expenditures

Supervisor Fees

Chapter 190, Florida Statutes, allows for each Board member to receive \$200 per meeting, not to exceed \$4,800 per year paid to each Supervisor for the time devoted to District business and meetings. The amount for the fiscal year is based upon 5 Supervisors attending 13 meetings.

District Management

The District has contracted with Governmental Management Services-Central Florida, LLC to provide management, accounting, and recording secretary services. These services include, but are not limited to, advertising, recording and transcribing of Board meetings, administrative services, budget preparation, financial reporting, and assisting with annual audits.

District Engineer

The District's Engineer, Dewberry Engineers, Inc., will be providing general engineering services to the District, e.g., attendance and preparation for the monthly Board meetings, review of invoices and requisitions, preparation and review of contract specifications and bid documents, and various projects assigned as directed by the Board of Supervisors and the District Manager.

District Counsel
